Advanced Technology Video (ATV) announces Two new IP 2MP Mini-Cube Cameras

Coppell, TX – June 14, 2013 – Advanced Technology Video (ATV) a leading provider of innovative video security surveillance solutions announces the release of two new economy line **IP 2MP Mini-Cube** cameras as its newest addition to the **ATV IP Solutions** product line.

The **IPMC2M** and **IPMC2MA** cameras offer brilliant video quality with 2 Mega-Pixel, 1,600 x 1,200 resolution at 30-ips. The cameras are based on H.264 compression and offer progressive scan image sensor, a no hassle fixed 2.8mm wide angle lens and both PoE and 5VDC power options. The models provide triple video streaming up to 15-ips at 1,200p resolution. The IPMC2MA model additionally offers a PIR motion sensor, two-way audio (mic and speaker) and white LED illumination upon an event.

As with all ATV IP cameras, ONVIF Profile S compliance is guaranteed and is complemented with ATV's powerful **ATVision Pro**® Remote Management Software featuring video monitoring, playback, recording, setup, PTZ control, system up-grade, MAP integration and multi-site system health monitoring.

“ATV is excited to offer the economy 2MP camera solutions to our customers. We expect these cameras to be adopted by many of our system integrators and distribution customers. The performance of this unit is exceptional and we are happy with the opportunity to expand the ATV IP product solutions strategy with these new more affordable solutions.” says Bob DeProspero, ATV Director of Sales.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983. Since then, we've delivered products with unmatched reliability and value to the security industry.
