

For Release:

Advanced Technology Video (ATV) announces the 700TVL LD72 & LV72 Series Mini Domes

Coppell, TX – July 22, 2013 – Advanced Technology Video (ATV) a leading provider of innovative video security surveillance solutions announces the release of **five** new 700TVL **LD/LV Series** cameras as its newest additions to the **Performance Series** product line.

The four **LD72** interior cameras and the **LV72** exterior camera offers 700TVL of resolution and feature TRUE D/N (TDN) as well as Digital Wide Dynamic Range (D-WDR) for all light-level applications. As an extra benefit the LD72 interior dome cameras are available in both non-IR and models with 30 LEDs for 100 foot imaging distance. The models are also available in white and black case colors for most installation environments.

The **LV72** model is offered in an IP66 rated vandal proof housing with optional heater for -22 degree F operation. All units feature a 2.8-12mm VF AI lens and operate with either 12VDC or 24VAC and interface with existing wall pendent mount options supported by ATV.

The new **LD72** and **LV72** line is a natural extension to the popular ATV **LD62** and **LV62** (600TVL) series products – now just with 700TVL performance.
