Advanced Technology Video (ATV) Announces Professional 8" LCD/LED Video Monitor

Coppell, TX – June 1, 2012 – Advanced Technology Video (ATV) a leading provider of innovative video security surveillance solutions announces the immediate availability of the new **MLE800** small sized but professional 8" video monitor to the security market. The **MLE800** is now part of its Performance Series product line.

The new **MLE800** features VGA resolution with extended life, low power consumption LED backlight. The monitor video inputs include a standard VGA and one-looping composite video. The unit offers a wide viewing angle, high contrast ratio and OSD menu customization. The monitor is VESA mount compatible and is supplied with an integrated but removable desk stand and power supply. An optional dual-rack mount (MRK800) is available for console installations.

The **MLE800** is part of a full family of LCD/LED video monitors available from ATV including various sizes of VGA-only, multi-input CCTV monitors, public-view monitors with integrated cameras and optional media players, as well as large panel (up to 42") monitor assemblies.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983. Since then, we've delivered products with unmatched reliability and value to the security industry. Today we're stronger than ever, with a complete lineup of CCTV products that set industry standards for dependability and support. Our full line of cameras, recorders and other devices are loaded with features you won't find anywhere else at the same price. And we back those products with the best customer service and technical support available anywhere. So take a good look at all we have to offer. It's clear that whatever the needs or the application, ATV offers just what you demand.

Security without compromise
