Advanced Technology Video (ATV) Releases 32 Channel Hybrid NVR

Coppell, TX – February 2, 2016 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of its new 32 Channel Hybrid Network Video Recorder as the newest addition to the [ATV IP Series](#) product line.

The 32 channel **DR-6232H** Hybrid NVR supports up to 32 IP cameras or 16 analog and 16 IP cameras. The recorder features Full HD (1920 x 1080) real time recording for all channels with concurrent HDMI / VGA outputs, H.264 compression and a maximum recording resolution of 3MP (2048 x 1536). It has multiple recording modes and powerful search modes as well as self-diagnostics with automatic notification including Hard Disk Drive S.M.A.R.T. Protocol. The **DR-6232H** offers six total HDD spaces and two eSATA external storage connections. In addition the recorder includes text input functionality for ATM and POS and is compatible with Immix® Central Station Monitoring Software by [Sureview Systems](#).

“ATV is very excited to offer our new Hybrid NVR to existing and new customers. The superior performance of this unit along with the storage capabilities allow users to expand their existing projects”, says Keith Shaver, ATV’s VP of Sales and Marketing.

The **DR-6232H** works with ATV’s iRAS Remote Management Software featuring Live Monitoring, Playback Recording, Setup, PTZ control, Upgrades and Full Triplex Operation, User Defined 64-Channel View, Map Integration and Multi-Site System Health Monitoring with User Defined Customizable Panel Design.
