Advanced Technology Video (ATV) Announces NEW 2MP 12x Mini-PTZ Camera

Coppell, TX – August 4, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of its new IP Mini-PTZ camera to the [ATV IP Series](#) product line.

The **IPSDMV122** [Mini-PTZ network camera](#) is fully featured for security surveillance and remote monitoring needs. It offers brilliant video quality with a 2 Mega-Pixel Full HD, 1920x1080 Resolution and a 12x, 5.3 - 62.6mm, Auto-Focus, Optical Zoom Lens with 16x Digital Zoom Function. The camera delivers triple video streams simultaneously at up to 60ips using H.264 and Motion JPEG compression along with True Day/Night and WDR. The **IPSDMV122** also includes enhanced video motion detection and progressive encoding.

“The amount of features makes this camera a very popular solution. Our current and future customer will be very delighted to have a product where they can capture quality images from multiple angles.” says Keith Shaver, ATV’s VP of Sales and Marketing.

The small and compact dome camera is IP66 rated with a built in heater and support a micro-SD memory slot for local recording. It can also be powered through 12VDC, 24VAC and PoE.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983.
