Advanced Technology Video (ATV) Announces NEW 700TVL Interior Dome Camera

Coppell, TX – August 22, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the expansion of its [Ultimate Series](#) product line with the introduction of the **FD700WDR**.

The **FD700WDR** is an [interior dome camera](#) that features 700TVL resolution, a 2.8mm to 12mm varifocal DC Auto-iris lens and a 1/3" Sony 960H Super HAD II CCD for improved sensitivity. The camera offers excellent video images in low-light at 0.1 Lux illumination and 3D Digital Noise Reduction for increased video quality and smaller recorded digital file sizes. It's also equipped with True Day/Night and True Wide Dynamic Range functionality for all lighting applications as well as motion detection, back light compensation and programmable Sens-Up for low-light conditions.

"ATV continues to develop products that deliver high quality images at competitive prices to meet the needs of our customers," says Keith Shaver, ATV's VP of Sales and Marketing.

In addition, the camera features an on-screen display and can be powered through 12VDC and 24VAC.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983. Since then, we've delivered products with unmatched reliability and value to the security industry. Today we're stronger than ever, with a complete lineup of CCTV products that set industry standards for dependability and support. Our full line of cameras, recorders and other devices are loaded with features you won't find anywhere else at the same price. And we back those products with the best customer service and technical support available anywhere. So take a good look at all we have to offer. It's clear that whatever the needs or the application, ATV offers just what you demand.

Security without compromise
