

For Release:

Advanced Technology Video (ATV) announces IP Video Solutions Integration with Milestone Systems VMS

Coppell, TX – May 24, 2016 – [Advanced Technology Video](#) (ATV), a leading provider of innovative video surveillance solutions, announces their entire product line of IP Video Solutions cameras is now integrated with [Milestone Systems](#) XProtect video management software (VMS), supporting a wide range of capabilities.

The integration work was recently completed by Milestone using their ONVIF driver and results in ATV's entire family of affordable and feature rich network IP cameras being accessible to the Milestone's VMS. The ability to use ATV's cameras will offer more options to dealer and integrators looking to improve their product offerings and service to their customer with ATV's innovative and value-driven products.

[ATV IP Video Solutions](#) offer a wide variety of 2MP and 3MP, H.264, cameras with rich features such as TRUE Day/Night, Wide Dynamic Range, motorized vari-focal lens with remote focus, IR LED lighting and onboard SD card storage capabilities. In addition, our newest IP cameras offer video analytic capabilities and a new **Corridor / Aisle View** orientation function. ATV also offers affordable and easy to use Network Video Recorders when local recording is required, each featuring remote app connectivity with Apple and Android devices.

"The integration of Milestone's VMS with our IP Video Solutions fits perfectly with our long term goal of providing the best products available with the freedom to choose VMS solutions. Many of our clients are thrilled to know that end-users have the flexibility to use ATV products with industry leading VMS providers", says Keith Shaver, Vice President of Sales and Marketing.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983.
