Advanced Technology Video (ATV) Releases NEW 2MP Mini-Dome & Bullet IP Cameras

Coppell, TX – April 2, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of two new IP cameras to the [ATV IP Series](#) product line.

The [IPMD2FI mini-dome network camera](#) and the [IPMB2FI mini-bullet network camera](#) are designed to be unobtrusive due to their small size, while providing stunning quality images. These 2MP Full HD Resolution cameras deliver triple video streams simultaneously at up to 30ips using H.264 and Motion JPEG compression for increased flexibility. The [IPMD2FI](#) and [IPMB2FI](#) come equipped with powerful IR LED lights for 0.0 Lux Night-time operation up to 60ft. Both cameras support a micro-SD memory slot for local recording with removable storage and can be powered through PoE, which simplifies installation.

“Our mini IP cameras are expected to be very popular for small and medium sized businesses due to its advanced capabilities and small size. Many installers and end-users have already shown a high interest in these types of products”, says Bob DeProspero, ATV’s Director of Business Development.
