## Advanced Technology Video (ATV) Releases NEW Line of Network Video Recorders with PoE

Coppell, TX – June 18, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of its new line of PoE Network Video Recorders to the [ATV IP Series](#) product line.

The new line of [network video recorders](#) connect and record up to 4, 8 or 16 network (IP) security cameras. The **NVR4P**, **NVR8P** and the **NVR16P** records up to 3MP (2048 x 1356) resolution on all channels with H.264 compression. The new network video recorders are equipped with PoE ports for all channels and offer both HDMI and VGA outputs for local display. In addition to the extremely powerful ATVision IP for remote viewing, the devices are compatible with Apple iOS and Android OS mobile applications.

*“ATV is very excited to be releasing these NVRs. The ability to be able to supply power through the PoE switcher simplifies the installation and significantly reduces costs. We have already received a tremendous amount of positive feedback regarding this product”, says Keith Shaver, ATV’s VP of Sales and Marketing.*

The PoE capability allows for a quick and simple solution in providing power to IP cameras. These new powerful network video recorders are also [ONVIF compliant](#) which make them the perfect solution for customers looking to upgrade their IP surveillance system.

**About Advanced Technology Video:** Advanced Technology Video has been a force in the security business since 1983. Since then, we’ve delivered products with unmatched reliability and value to the security industry. Today we’re stronger than ever, with a complete lineup of CCTV products that set industry standards for dependability and support.
