Advanced Technology Video (ATV) Releases NEW Value Line Digital Video Recorders

Coppell, TX – January 27, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of three new Digital Video Recorders to the [ATV Value Line Series](#) product line.

The new line of Digital Video Recorders connects and record up to 4, 8 or 16 security cameras. The **VLD904**, **VLD908** and the **VLD916** support D1/960H recording and playback on all channels with H.264 compression. The new video recorders feature Programmable Video Motion Detection, Alarm In and Video Loss Alarm Inputs by camera. In addition the pre-recording feature allows additional images to be captured prior to the motion detected event. The models are equipped with a built-in RS-485 port for PTZ control.

“ATV is very excited to release a new line of DVRs. We have received a remarkable amount of interest from current and prospective customers and look forward to them taking advantage of their low-cost, says Keith Shaver, ATV’s VP of Sales and Marketing.

The video recorders are supported by ATV’s newest [video management software](#), **ATV SkyVision**, as well as a free downloadable app for monitoring and control via Apple iOS and Android OS devices.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983.
