## Advanced Technology Video (ATV) announces the 22X Mini-PTZ w/ 700TVL, TDN, WDR

Coppell, TX – June 28, 2013 – Advanced Technology Video (ATV) a leading provider of innovative video security surveillance solutions announces the release of two new 700TVL **22X Mini-PTZ** cameras as its newest addition to the **Performance Series** product line.

The **SDM722DW** and **SDM722DWH** cameras offer 700TVL resolution based on the SONY Ex-View HAD CCD. The cameras feature TRUE D/N and Wide Dynamic Range (WDR) for all light-level applications. The base model includes an integrated heater and provides flush, pendent and wall-mount mounting options while the (H) suffix model includes an environmental housing including an integrated housing heater, blower and sunshield.

The new 22X mini-PTZ also offers 16X digital zoom and auto recognizes both Pelco P and Pelco D communications protocols. The 22X models offers digital flip, 240 presets, 8 tours and 16 auto-scans.

The new SDM7 line is a nature extension of the popular ATV 22X Mini-PTZ – now just with 700TVL performance.
