Advanced Technology Video Releases License Plate Capture Camera

Coppell, TX – April 13, 2012 – Advanced Technology Video a leading provider of innovative video security surveillance solutions announces the release of the **CLP** series License Plate Capture camera – now part of its SPECIALTY SERIES product family.

The new CLP5050I camera captures license plates on vehicles traveling up to 75 mph and at a distance of 16 to 90 feet. The camera includes an integrated 5-50mm vari-focal lens with external zoom and focus adjustments preventing the need to remove the camera from the protected camera housing. The camera assembly also features a built-in heater and weather-resistant IP65 rated housing with Through-Mount-Wiring (TMW) for easy installation.

The internal camera offers a 600TVL resolution sensor and SMART LED functionality with 100 IR LED illumination. The camera may be powered from either 12VDC or 24VAC supply sources.

About Advanced Technology Video: Advanced Technology Video is an industry leader in innovative security solutions including a complete line of H.264 HDR and VLDVR (Value Line) DVR's, 600TVL day/night, 650TVL WDR, and 690TVL-E Pixim WDR cameras with on-board video analytics powered by IQ²™ technology, LCD/PVM monitors, high-performance PTZ speed domes and specialized covert cameras.
