## Advanced Technology Video Releases High Resolution Tower Camera for Retail and Banking Applications

---

Coppell, TX – December 15, 2011 – Advanced Technology Video a leading provider of innovative video security surveillance solutions announces the release of the **CTV36PB** – a newly designed Tower Camera offering 600TVL resolution– now part of its SPECIALTY CAMERA SERIES.

The innovative Tower Camera was designed specifically for **Banking, Commercial, National Account and Retail** applications when facial image capture is required.

The unique tower concept allows close-up, eye-level imaging of a customer's facial features – which is superior to video image from far-away ceiling or pendant mounted cameras.

The **CTV36PB** camera features the a new CCD offering 600TVL of resolution, a wide angle 3.6mm lens, adjustable height, pan angle and camera tilt to customize the image view. For designer countertops used in many banks and retail stores – a flat metal base with adhesive is included preventing penetration of the counter surface. Locking mechanisms ensure the camera view is not altered during use and the Tower Camera is UL listed to ensure product quality and reliability.

---
