Advanced Technology Video (ATV) Announces 16-Channel Network Video Recorder H.264, Real Time 480-ips

Coppell, TX – September 4, 2012 – Advanced Technology Video (ATV) a leading provider of innovative video security surveillance solutions announces the availability of the new **NVR16-2TB – Network Video Recorder** as a complement to the **ATV IP Solutions** product line.

The new OnVif compliant **NVR16** series NVR features Auto-Discovery for quick programming and system set-up while offering 16 video channels, H.264 compression and recording at 480-ips at D1 resolution. The NVR16 supports record resolution up to Full HD (1920 x 1080), multiple recording modes (schedule, continuous, event, pre-event and POS Text-In), multiple search modes (date/time, calendar, event, bookmark and POS Text-In). The remote system operation is supported by the extremely powerful and intelligent video surveillance management software – ATVision IP with up to ten simultaneous connections. The system supports network time sync, alarm association, 16-channel audio recording and self-diagnostics with automatic notification for HDD SMART Protocol. The unit provides two internal and four external (eSata) hard disk drives and four USB2.0 ports.

“ATV is very pleased to release the long awaited ATV NVR16 to our customers. We expect this unit to be adopted by many of our system integrator customers as quoting and pre-sales of the product is underway. The performance of this unit is exceptional and we are happy with the opportunity to expand the ATV IP product solutions strategy with this NVR16 series product.”
says Bob DeProspero, ATV Director of Sales.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983. Since then, we've delivered products with unmatched reliability and value to the security industry. Today we're stronger than ever, with a complete lineup of CCTV products that set industry standards for dependability and support.
