Advanced Technology Video (ATV) Announces NEW Low-Profile Network Camera

Coppell, TX – August 12, 2014 – [Advanced Technology Video](#) (ATV) a leading provider of innovative video surveillance solutions, announces the release of its new Low-Profile IP Camera to the [ATV IP Series](#) product line.

The **IPLP2TF** [low-profile network camera](#) is a high quality dome camera with a unique low-profile design. It has superior 2MP Full HD, 1920 x 1080 Resolution, Day/Night functionality for low-light applications and a 3.7mm wide angle fixed lens. The camera delivers triple video streams simultaneously at up to 30ips using H.264 and Motion JPEG compression. The **IPLP2TF** also includes motion detection and privacy masking.

“The new low-profile camera is an excellent choice for those seeking an unobtrusive solution while maintaining quality performance.” says Keith Shaver, ATV’s VP of Sales and Marketing.

The small and compact dome is ideal for discreet installations; given that it resembles a smoke detector. In addition, it supports a micro-SD memory slot for local recording and can be powered through 12VDC and PoE.

About Advanced Technology Video: Advanced Technology Video has been a force in the security business since 1983.
